

PRO SERIES

LAMINAR FLOW MUFFLERS

MODERATE
EXTERIOR SOUND LEVEL

MINIMAL
INTERIOR RESONANCE

Looking for a versatile muffler with lots of performance applications? The Pro Series Laminar Flow mufflers bring the latest in performance and sound control technology to the street and racetrack. These round-cased mufflers deliver ground breaking sound control while delivering maximum power and exhaust system efficiency. The full-size Pro Series mufflers sound great on gasoline or diesel truck or racing applications. The Pro Series "shorty" mufflers are a terrific choice for muscle cars and other performance vehicles where great sound is desired.

- Most versatile Laminar Flow muffler we offer
- Deeper tone for great performance sound
- 409S Stainless Steel construction
- Limited lifetime warranty to original purchaser
- Low exterior heat via Cool Shell Technology
- Both full-size and shorty versions available

« A SOUND SOLUTION »

"In our extensive muffler testing program, we found the PRO Series mufflers on our Daytona Prototype engines flowed equal to open exhaust and were very quiet; in fact quiet enough to easily pass sound regulations". -Bob Cronin
